Re. Testimonial for Commercial Insurance

To whom it may concern

I approached Philip Beckett from The Insurance Centre in Norwich having spoken in the past about our commercial and employer's liability insurance.

Having used our previous Insurance Company for over 13 years we were somewhat nervous about changing insurer. Philip attended our business property in person to discuss our needs and we reviewed our existing policy together. I was very impressed by the time Philip took to ensure our policy was both suitable and cost effective for our company.

Not only did we increase our insurance value and add additional policies, but we also saved a considerable amount of money on the overall policy value. We like to use local businesses and always value a personal service over a call centre.

I would have no hesitation in recommending Philip from The Insurance Centre

Thanks Philip...
