The Insurance Centre

My wives insurance policy for her private car recently became due, our current insurer sent through the new premium.

We passed the details to Andrew Stockbridge of the Insurance Centre for a comparison quotation, I would point out Andrew was not in the office at the time.

We received a phone the same afternoon and after a few basic questions it became very clear that the cover provided by another local broker was in fact invalid as they didn't even have the right model of vehicle.

The Insurance Centres quotation was slightly more however the cover was by far more inclusive and the gentleman who called was very professional and courteous.

I would have no hesitation in recommending Andrew and the team at the Insurance Centre for the care and professional service they provide.

From myself and my wife our thanks and gratitude
